## What is Head Start?

The CADC Head Start program was started in 1967 to give children from low-income families a head start before they enter elementary school.

The main focus is to increase the school readiness of young children ages 3 and 4. The program also seeks to help parents and caregivers be empowered to self sufficiency.

Children in the program have access to educational resources, health and dental services, nutritional services, and social services.

A major function of the CADC Head Start program is family involvement.

## Eligibility Requirements
